# ACCESS FOR ELLS 2.0

- ACCESS for ELLs 2.0 is an English language proficiency assessment for students in grades K-12. The test is administered every year to help monitor the English language development of students identified as English language learners. ACCESS for ELLs 2.0 is a computer-based, adaptive test that measures students' ability to understand and produce English used within the school setting, and tests students' language in four domains: Listening, Reading, Speaking and Writing.
- In 2020 a total of 25 students took (20 completed) the ACCESS for ELLs 2.0. Using these test results as one of multiple criteria, 9 students were able to exit the English as a Second Language program. Participation in the program ranged from 1 to 4 school years. On average, exited students participated in ESL for 2 years.
