*On Wednesday the district will be giving an assessment test. It will include Language Arts and Math. The district should receive the results quickly. The district had some minor storm damage due to IDA which included some flooding in East Brook Elementary School. The areas were cleaned up, sanitized and ready for school opening the next day. **XIV. Hearing of Citizens**

*A parent asked about Executive order 253. She commented that the order was not very clear, and that districts could interpret it. She referred to Section 5 which addressed covered workers. Under this section it includes volunteers and covered workers. She pointed out that the PTO members are volunteering for the PTO and not the school, and should not be considered volunteers. She also questioned what should be considered a regular visit. She also stated that imposing these restrictions on the PTO members will cripple their ability to assist the district, and ultimately hurt the children. She felt that the Board has the power to decide how this policy will be implemented. Volunteers could wear masks and gloves and stay home when not feeling well. She encouraged the Board to consider this.*

*Dr. Gamper responded that the administration met to discuss this. They do not want to strain the PTO resources, but at the same time the Board attorney has indicated that volunteers coming in on a regular basis would be subject to the restrictions. Regular can mean daily, weekly or monthly. He also pointed out that you do not have to be vaccinated and could opt for a test. While he did not want to deter people from volunteering, he needs to uphold the executive order.*

*A parent questioned the classification of PTO members as volunteers and Dr. Gamper replied that the attorney has indicated that they are included in that definition. The Board Attorney responded by stating that the definition for volunteer means not employed by anyone.*

*The Parent disagreed and asked the Board to rethink this.*

*Dr. Gamper responded that he has asked the Elementary Principals to reach out to volunteers and determine when they are coming in and have a discussion.*

*The Parent asked about outside events. Dr. Gamper responded that outside events do not apply.*

*Another parent expressed concern that they are just finding out about this now. She felt that the Executive order has been out for a while and volunteers have already dedicated many*

*hours of their time. She felt the notice about this was poorly planned. She feels this will be a disruption as some volunteers are scheduled to be in classrooms.*

*Dr. Gamper responded that the law goes into effect on 10/18. The administration is still working on several items that this will impact such as testing. He commented that volunteers could go to the same location as teachers who are going for testing. Most locations will take students and volunteers.*

*A question was raised as to what would happen if there was not enough help. Dr. Gamper indicated that he is working with the Principals to prepare for this.*

*A question was asked about class moms, Dr. Gamper said he would need to review the schedules with the Principals.*

*A parent stated that she was in support of the Board's decision on vaccinations.*

*A parent asked why the Middle School and High School received free lunch but the Elementary schools did not. Mr. Wright explained that the program did not cover the elementary schools because they did not have the proper storage equipment.*

*A parent who grew up in Park Ridge thanked the Board for volunteering their time. She asked if the Board sees vaccines being mandated. Dr. Gamper responded that it was difficult to say and hard to predict. He was personally shocked when masks were mandated. The parent said she has three daughters attending the school system. The third child had a severe adverse reaction to the vaccination. She stated that everyone's experience needs to be taken into consideration.*

*A parent commented that the mandate is open to interpretation, depending on what data are you using to make the determination. Dr. Gamper responded that the district will define what regular school visits will be.*

*A parent asked about the gender-neutral bathrooms and asked about gym attire. Dr. Gamper responded that he was not familiar with gym attire and the parent should speak to the Principal. In regards to the gender-neutral bathrooms, Dr. Gamper responded that they were created for students who identify as non-binary. Typically, these are single use bathrooms. It is the safest environment the school can provide. There is a lock on the door as a safety precaution. The district also has a staff member monitoring them and video security system. In conversations with other superintendents who have them, they reported as not having any issues with them. The two bathrooms are located between the main gym and the mini gym.*

*A parent asked for the status of hiring another school psychologist. She referenced issues with Covid and stated that her child has still not been seen. Dr. Gamper responded that Mr. Fiedeldej is still trying to get an idea of the caseload. West Bergen is currently providing these services. He did not have a definitive answer at this point.*

*A parent expressed appreciation to Board for the measures they are implementing. Some parents are still hesitant about sending their children to school. She was glad for the testing*

*of substitutes. She works in another district where that is not available. She acknowledged that these are tough times and difficult decisions.*

*A parent asked if the district could offer parent workshops to help them understand how to use the software which the school uses. She felt Schoology is challenging. Dr. Gamper responded that he would look into this.*

**XV. Board Comments – New/Unfinished Business**

*Mr. Bradler thanked everyone for coming. He assured them that the Board does listen and take notes. He commented that it is frustrating when dealing with orders from the State.*

*Dr. Gamper reported that Mr. Brown was approached by a company called hudl. Hudl currently does recording of football games for the team to review. They presented a proposal to install a camera system in the main gym and football field. This would allow the district to stream games on You Tube for free. There would be no cost to parents but would cost the Board \$4,000. The Board gave the OK to move forward.*

*Dr. Gamper reported that the Utility Board is working with students from the High School. This could lead to possible scholarships. They will work with Pascack Valley and see if a partnership can be done.*

*Ms. Sum reported that they are updating the website. A new landing site and FAQ's were implemented. Dr. Gamper thanked her for her work.*

*Ms. Wagner asked to schedule a reopening committee meeting.*

*Ms. Agoos asked if parents who were waiting for services could be given a date that they would be seen by.*

*Ms. Wagner asked when a presentation could be done by Steve and his department. Dr. Gamper responded that they could do it in November or hold a Special Meeting.*
